Press Release

Shares Acquisition of PT Jasamarga Transjawa Tol (JTT)

The largest toll road acquisition in Indonesia ever since (transaction closing on September 27, 2024): 35% strategic partnership with Jasamarga Group in Transjava tranche, the crown-jewel of the Java island toll roads with a deal value of IDR 15,750 Bn. A visionary investment decision backed up by profitable assets, dividend-track records, and long-term concession life.

JTT's Ownership Structure Post Closing

MUN's Ownership Structure Post JTT Acquisition

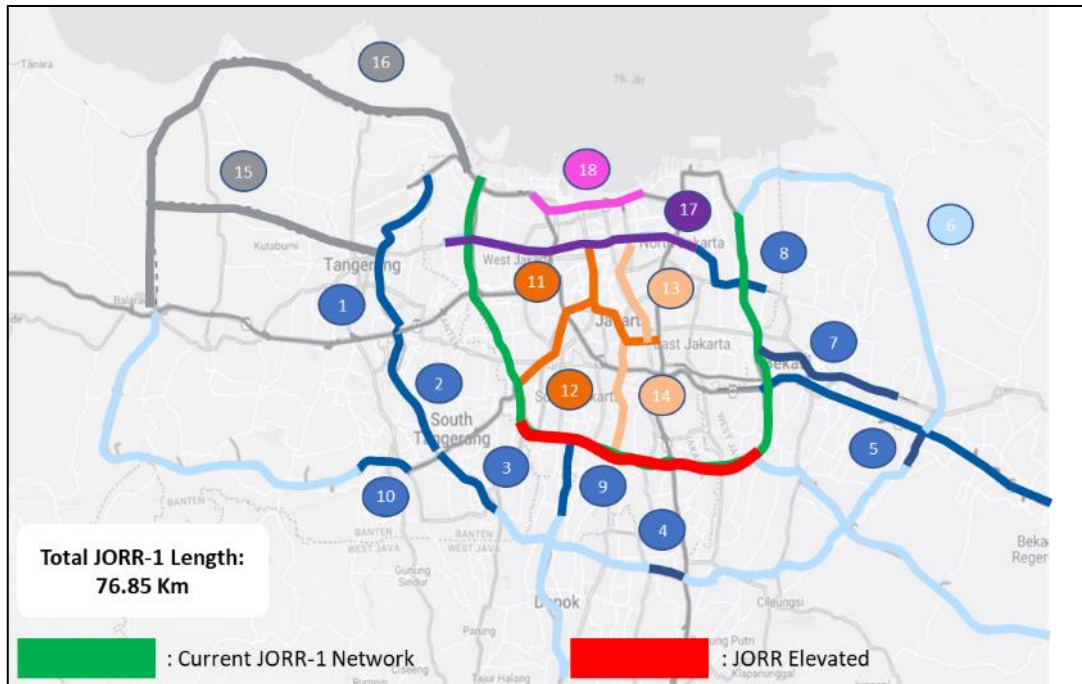

*) MUN will have a direct ownership in JTT of 4.24% but acting as the mandated leader in the portfolio activity.

JORR Elevated Project

Game changer in the pipeline. Signed a 45-yr. concession project (October 2023) of a bypass elevated road in the inner ring (JORR-1) of Jakarta city. With a presence in JORR-1 best asset (JORR-W1/JLB), the new project will become a game-changer for the company's group in the future. Less demand risk backed up by an integrated toll revenue pooling system. *Currently, the concessionaire is in the process of design review and expected to complete the final design activity early next year.*

Energy Production

RPSL recorded lower output compared to the previous year due to incidents on the PLN transmission system and improvement of the pre-heater, while IME recorded lower output due to the acceleration of its five-year maintenance schedule. However, both plants continued to generate energy above the PLN contract values. The decrease in output only affected sales for excess demand.

Proyek JORR Elevated

Perubahan besar dalam perencanaan. Nusantara Infrastructure telah menandatangani proyek konsesi selama 45 tahun (Oktober 2023) untuk jalan *bypass elevated* di ring dalam (JORR-1) kota Jakarta. Dengan keberadaan di aset terbaik JORR-1 (JORR-W1/JLB), proyek baru ini akan menjadi Langkah strategis bagi grup perseroan di masa depan. Risiko permintaan yang lebih rendah didukung oleh sistem *pooling* pendapatan tol yang terintegrasi. Saat ini, pemegang konsesi sedang dalam proses tinjauan desain dan diharapkan dapat menyelesaikan aktivitas desain akhir pada awal tahun depan.

Produksi Energi

RPSL mencatat output yang lebih rendah dibandingkan tahun lalu akibat insiden pada transmisi PLN dan perbaikan *pre-heater*, sementara IME mencatat output yang lebih rendah karena percepatan pemeliharaan 5 tahunan. Namun, kedua pembangkit tetap menghasilkan energi di atas nilai kontrak dengan PLN. Penurunan output hanya berdampak pada penjualan untuk permintaan berlebih.

Bagian 3: Kinerja Keuangan

Pendapatan and EBITDA

Pendapatan dan Penjualan 2020 – YTD 3Q-2024

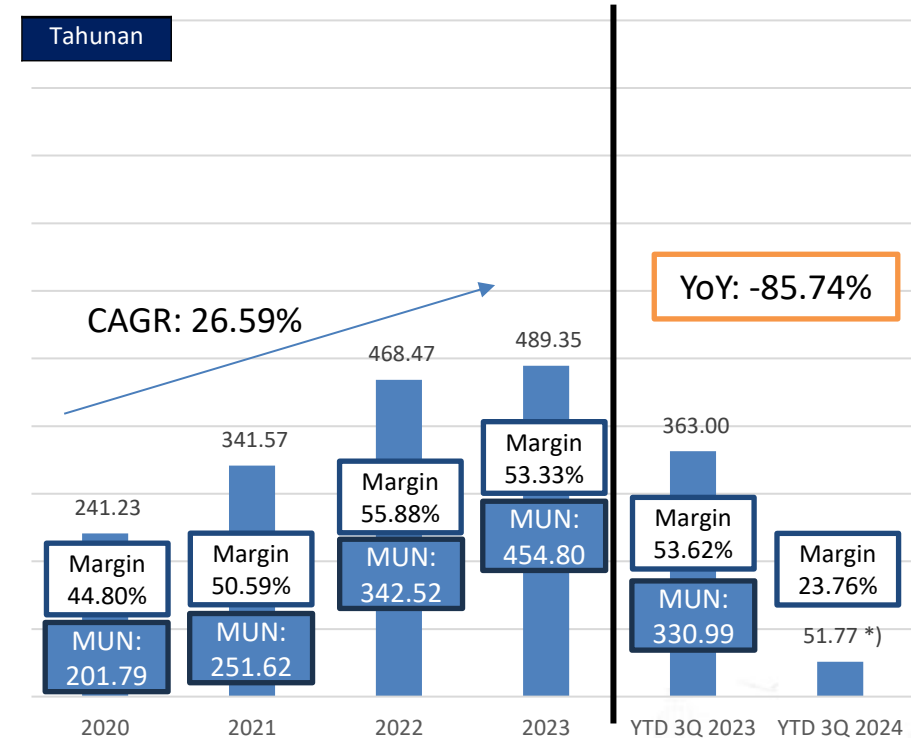

Termasuk pendapatan operasional lainnya, tidak termasuk pendapatan konstruksi (seperti pendapatan iklan dan sewa lahan)

Antara tahun 2020 dan 2023, pendapatan & penjualan menunjukkan CAGR sebesar +19,45%. Pasca dekonsolidasi MUN (efektif mulai 19 Desember 2024), Perseroan mencatatkan pendapatan konsolidasi yang lebih rendah.

EBITDA 2020 – YTD 3Q-2024

Sebagaimana tercatat dalam laporan keuangan teraudit dan tidak termasuk cabang tidak berulang

*) Tidak termasuk MUN (dekonsolidasi).

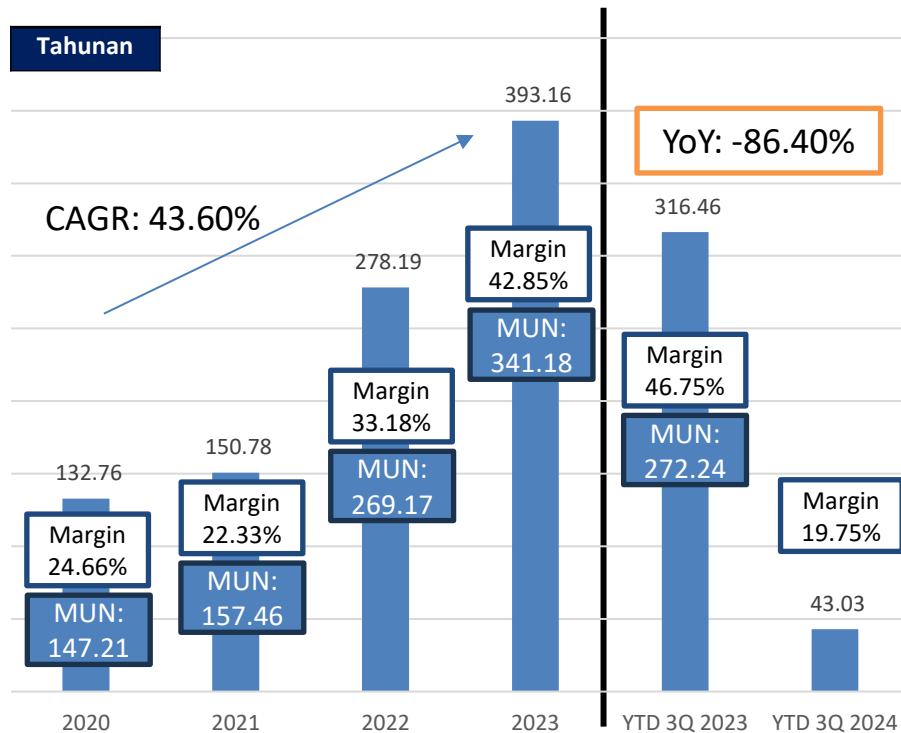

EBITDA MUN per YTD 3Q 2024 sebesar Rp 381.7 Miliar (100%).

Asumsi Perusahaan efektif mencatatkan EBITDA MUN secara proporsional adalah setara dengan Rp 202.35 Miliar (Rp 51.77 Miliar + 39.45% x Rp 381.70 Miliar).

Dikarenakan dekonsolidasi MUN (*sub-holding* jalan tol), Perseroan mengalami penurunan dalam laporan keuangan konsolidasian. Namun, Perseroan tetap mencatatkan EBITDA yang positif per YTD 3Q-24.

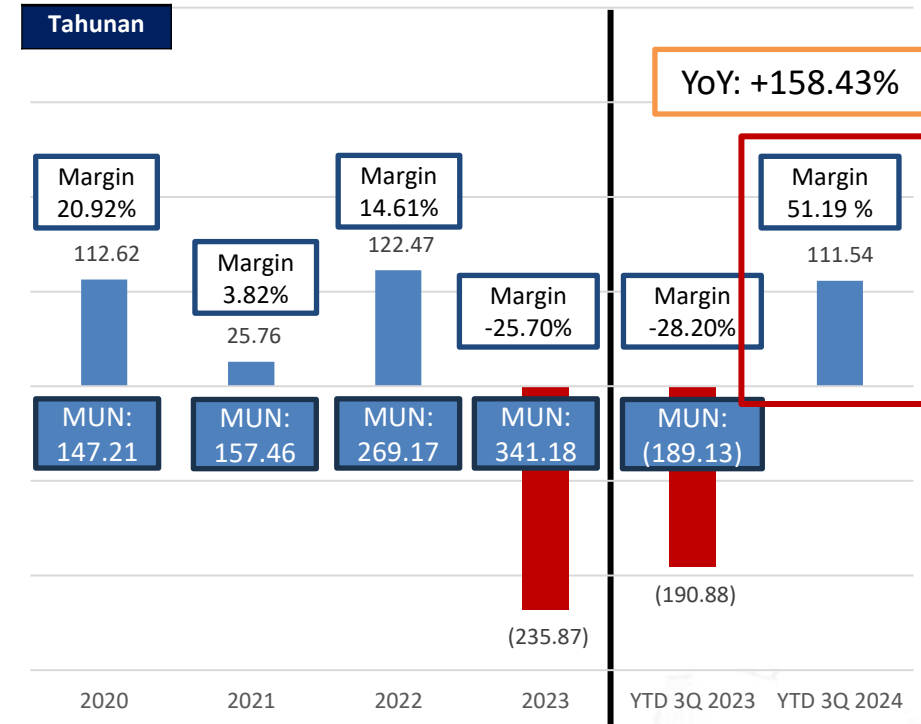

Laba Usaha dan Laba (Rugi) Bersih

Laba Operasional 2020 – YTD 3Q-2024

Laba Usaha disesuaikan turun setelah efek dekonsolidasi. Namun demikian, angkanya tetap positif dengan margin 19,75%.

Laba (Rugi) Bersih 2020 – YTD 3Q-2024

Perseroan berhasil mencatatkan laba sebesar Rp111,54 Miliar, membalikan rugi bersih sebesar Rp190,88 Miliar pada tahun lalu. Kendati setelah dekonsolidasi MUN, perseroan mencatatkan laba ekuitas bersih dari MUN sebesar Rp109,76 Miliar (untuk 43,39% porsi penyerapan laba yang diatribusikan).
